

BAYES BUSINESS SCHOOL EVENT

AI Frontiers

Cutting-edge developments in AI:
challenges, opportunities, and
the road going forward

Date:

3rd June 2026

Time:

5pm–7pm

Venue:

Bayes Business School,
106 Bunhill Row,
London EC1Y 8TZ

Join Bayes Business School for an evening exploring how AI is reshaping business and society. Hear from innovative companies applying AI across financial analysis, reporting, agriculture, education, and health.

PRESENTATIONS FROM

ARAWAI

Annual Report Analysis with AI — a next-generation platform using large language models and financial modelling to turn complex annual reports into precise, actionable intelligence.

arawai.uk

Convai

An AI-powered reporting and decision-support platform that connects financial and non-financial information using large language models, knowledge graphs, and interactive analytics.

convai.biz

Permia Sensing

An AI-enabled agricultural technology company improving plantation productivity and sustainability through drone imagery, AI analytics, and proprietary bio-acoustic sensing.

permiasensing.com

Teacher Success Platform

An AI-enabled workforce development platform helping improve teacher recruitment, preparation, and retention through behavioural insight, simulations, and AI-supported development tools.
